

June 10-14, 2019

UI College of Public Health Building, 145 N. Riverside Drive, Iowa City, IA, 52242

Networking Reception - Monday, June 10, 2019 - 4:00-6:00 pm

The Agricultural Safety and Health Core Course has been the national model of effective agricultural safety and health education for over a decade. Expert instruction is provided by experienced faculty and specialists including **Board Certified Physicians**, **Veterinarians**, and **Certified Industrial Hygienists**.

Course Includes

- Interactive Activities
- Safety and Rescue Demonstrations
- Classroom Instruction
- Farm Tours
- Research Poster Display
- Case Studies
- Panel Discussions
- Producer Perspectives

"Learning this subject matter by people in the field carried so much weight. I got a perspective I had little experience with."
- Physician

"Amazing program, high quality content."

- Health educator and farmer/rancher

"Very good program, learned many things I didn't know."

- Veterinarian

"I will certainly recommend this program to health care professionals."

- Pharmacist

General Information

STATEMENT OF PURPOSE

The course provides the information and skills needed to enable safety and health professionals to anticipate, recognize, and prevent occupational illnesses and injuries among members of the agricultural community.

INTENDED AUDIENCE

Appropriate for safety and health managers, health care providers, public health practitioners, veterinarians, and anyone interested in the unique safety and health needs of rural and agricultural communities.

COURSE DIRECTOR

Diane Rohlman, PhD, Associate Professor, Department of Occupational and Environmental Health, University of Iowa College of Public Health.

ACADEMIC CREDIT

Sessions 1 and 2 combined may be taken for 3 hours of graduate credit from the University of Iowa College of Public Health. Students must register for OEH:6110, Rural Health and Agricultural Medicine (Summer Session 2019).

CONTINUING EDUCATION

Physicians

Attendees seeking AMA PRA Category 1 CreditTM will self-claim their credits and print their certificates at the conclusion of the conference via the UI College of Medicine's CME Portal. Instructions will be provided at check-in.

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the University of Iowa Carver College of Medicine and the University of Iowa College of Public Health. The Carver College of Medicine is accredited by the ACCME to provide continuing medical education for physicians.

The University of Iowa Carver College of Medicine designates this live activity for a maximum of 32.75 AMA PRA Category 1 $Credits^{TM}$. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Session 1 – June 10-12, 2019: 15.50 AMA PRA Category 1 Credits[™]

Session 2 – June 12-14, 2019: 17.25 AMA PRA Category 1 Credits™

DISCLOSURE POLICY: Everyone in a position to control the content of this educational activity will disclose to the CME provider (University of Iowa Carver College of Medicine) and to attendees all relevant financial relationships with any commercial interests.

Nurses

This program is offered in cooperation with the University of Iowa College of Nursing, an Iowa Board of Nursing approved provider, Number 1. Full time attendance for Session 1, 15.5 contact hours will be awarded. Full time attendance for Session 2, 17.25 contact hours will be awarded. CEU cards will not be accepted until the end of the third day of each session.

Veterinarians

The Iowa Board of Veterinary Medicine has approved this program for 31.25 CEU.

Emergency Medical Services

The program has been approved for EMS Continuing Education Hours by the University of Iowa Hospital's EMS Learning Resources Center, Iowa Approved Provider #18. The EMSLRC designates Session 1 of this activity for 14.75 Optional Hours and Session 2 of this activity for 14.5 Formal Hours.

General CEUs

General CEUs will be awarded by the UI Center for Conferences. Attendance for the full week awards a total of 32.75 contact hours for 3.3 General CEUs.

Successful completion of this course allows qualified participants to join AgriSafe® as a Certified Member. AgriSafe® benefits include technical assistance, clinical resources, continuing education, and networking.

Educational Objectives

Upon completion of Session 1, the participant should be able to:

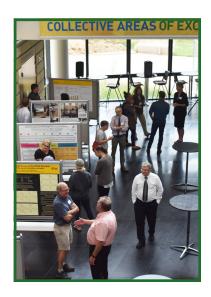

- Describe the incidence and impact of injury and illness among agricultural workers.
- Apply the industrial hygiene paradigm (anticipate, recognize, evaluate, and control) to occupational hazards among agricultural workers.
- Identify the hazards associated with agricultural transportation activities, with emphasis on tractors, ATVs/UTVs, commodity transport, and public roadway use.
- Access available resources for promoting rural safety and health.
- Discuss current research efforts to promote safety and health in agricultural and rural communities.
- Apply the hierarchy of controls to mitigate hazards associated with farm equipment.
- Identify emergency rescue methods appropriate to agricultural hazards and events.
- Identify hazards in youth case scenarios and apply methods of prevention.
- Recognize lung and skin illness that occur as a result of agricultural activities and apply strategies for their prevention.
- Recognize routes of disease transmission and recommend strategies for prevention of zoonotic diseases.

Upon completion of Session 2, the participant should be able to:

- Identify hazards associated with livestock production and recommend prevention strategies.
- Describe agricultural work factors associated with psychosocial stress.
- Apply NIOSH Total Worker Health principles to promote the health, safety and well-being of agricultural workers.
- Recognize risk factors for upper extremity and low back musculoskeletal disorders among agricultural workers.
- Recognize musculoskeletal illness that occur as a result of agricultural activities and apply strategies for their prevention.
- Recognize pesticide exposure scenarios and recommend methods to limit exposure.
- Observe farm activities and identify potential risk factors for injury and illness.
- Apply the hierarchy of controls to farm hazard scenarios.
- Describe exposures to physical agents and their associated health effects experienced by agricultural workers.
- Summarize available evidence linking agricultural work and cancer outcomes.
- Describe characteristics of agricultural workers that affect prevention efforts.
- Identify the unique healthcare needs of rural communities.

SESSION 1 JUNE 10-12, 2019
