

Farm Families Coping with Dementia (FFCD)

A Research Study

Do you have a relative with dementia who lives or works in a farming community?

*You may be eligible for **Farm Families Coping with Dementia (FFCD)***

FFCD is a free, online educational series designed to support caregivers of agricultural persons who exhibit signs and symptoms of dementia

Over **four weekly sessions**, learn about:

- Dementia Basics
- Farm Safety and Dementia
- Improving Safety with Dementia
- Caregiving and Communication

Get up to \$50 for surveys and feedback

When: You will be enrolled in FFCD beginning in either **July 2025** or **January 2026**.

Where: Online/Zoom
