PREVENTING SLIPS, TRIPS & FALLS

Reduce your risk of injuries by identifying hazards and following prevention tips.

Wear slip-resistant footwear with good tread.

Slow down on uneven terrain, steps, & wet surfaces.

Mark changes in height & use non-slip mats on wet surfaces.

Keep work areas clean & paths clear of debris.

COMMON RISK FACTORS:

- ① Working in livestock pens, barns, and silos
- ② Mounting and dismounting ladders, equipment, and machinery
- ③ Hazardous weather conditions
- ④ Uneven, slippery, or wet surfaces
- ⑤ Surface height and incline changes
- ⑥ Working in cluttered or dimly lit areas and buildings
