# PREVENTING SLIPS, TRIPS & FALLS

*Reduce your risk of injuries by identifying hazards and following prevention tips.*

Clear work areas/steps of clutter & debris.

Stay focused & know your surroundings.

Never jump on/off moving tractors or machinery.

Pay attention to steps & use grab bars when available.

## COMMON RISK FACTORS:

- ① Climbing off tractors and large vehicles/machinery
- ② Climbing ladders on buildings, silos, bins and tanks
- ③ Working with or around horses and livestock
- ④ Carrying items while using steps or climbing ladders
